## Description of Program/Major

Financial services involve comprehensive planning for the accumulation, conservation and transfer of personal wealth, and the provision of insurance, investment and banking services. Risk management is the identification, evaluation and reduction of risk of loss to an organization's physical and financial resources. Financial services/risk management is a people-oriented career that requires excellent communication skills and the ability to work well with individuals and in groups.

Individuals who enjoy using analytical skills, making decisions and explaining decision outcomes to others should consider this major. Additionally, students who enjoy working with people, are challenged by continuous learning requirements, and have a strong commitment to career advancement will benefit from a financial services/risk management career path at St. Mary's University.
